Introduction to Cryptocurrency

A Cryptocurrency is a digital asset designed to work as a medium of exchange that uses cryptography to secure its transactions, to control the creation of additional units, and to verify the transfer of assets. As opposed to conventional money transfer and banking systems in which centralized control is owned by a single party, cryptocurrency uses a decentralized structure. The control of each cryptocurrency works through a blockchain, which is a public transaction database. The blockchain functions as a distributed ledger, making counterfeit cryptocurrency impossible.

Bitcoin, created in 2009, was the first decentralized cryptocurrency. Since then, numerous other cryptocurrencies have been created. These are frequently called “altcoins”, a portmanteau of “alternative” and “coin”. The altcoin market is particularly exciting because there is still so much room for innovation and undiscovered uses for cryptocurrency. Motile Coin is an altcoin introduced as a Complete Cryptocurrency Solution for Mobile. This makes Motile Coin the ideal payment method for Mobile Recharging and Mobile Phone Purchasing.

Introduction to Motile Coin:

Motile Coin (MIE) is a PoS/Masternode based Crypto Coin that provides a secure crypto-based purchase experience in Mobile Recharging, Purchasing Mobile devices and all Mobile Related Payments all over the world. We provide a decentralized wallet to access funds at one place. Our roadmap includes a Website for Mobile Recharge All over the world, and to Accept Our Coin in Mobile Related Purchases. We are also planning to Issue ATM Card to Withdraw the Coins in their Local Currency.

MasterNodes

The Motile Coin (MIE) is a decentralized CryptoCurrency network of Masternodes without superfluous control and intermediaries/gatekeepers with nearly 90% pure Block reward phase and ensures lightning fast and secured transaction in Less Fees, It will also Support multi-wallets, encrypted messaging, stealth address for complete anonymity and low number of confirmations, .Masternodes are constantly connected to the network achieve faster transactions. These full nodes run 24/7 and require collateral of 5,000 MIE. The Masternode owner will be rewarded upto 90% of the block rewards.

Anonymous Transfers

We use Darksend protocol for more security and anonymity. This will helps you to keep all the Transactions anonymous

Rewards:

Motile Coin has dynamic reward structure. The Rewards of Masternode Increases Upto 90% and the rewards of Staking reduces from 25% to 10%. There is a Single wallet setup option for both staking and Masternode. This means that users do not need to worry about the staking of rewards, as the wallet does both Masternode services and gives rewards for coin staking too. The wallet can be used for multiple Masternodes and all the rewards can be auto staked automatically.

Specifications

Coin Name	:	Motile Coin
Ticker	:	MIE
Coin Type	:	POS + MasterNode Based Coin
Block Size	:	3MB
Total Coin	:	64 Million
Masternode Collateral	:	5000
Block Time	:	120 Secs(Approx 720 Block/Day)
Reward per block	:	30
Block (Reduction) Halving	:	-12% / Year
Premine	:	5%
Last PoW Block	:	2000
Block Reward Distribution	:	As per Chart
Block Size	:	3 MB
Minimum Stake	:	24 Hour
Coin Maturity	:	63 Blocks

Block Rewards Structure

	POS %	Masternode %
Year 1	25	75
Year 2	20	80
Year 3	15	85
Year 4	10	90
Year 5	10	90
Year 6	10	90

Invest in Masternodes to Generate Cryptocurrency Yields:

Masternodes are a section of the infrastructure of a certain group of crypto currencies. They are computer servers and provide services to cryptocurrency users. Masternode coins were developed so as to give the coin owners more control and more yield. One way that Masternode generates is yield is by offering services to the crypto currency infrastructure.

ROAD MAP

Research and Development of Blockchain, Wallets, and Website

Launching Website completed	Q1 2018
Windows Wallet Release completed	Q1 2018
Linux Wallet Release completed	Q1 2018
Block Explorer Released completed	
Macintosh Wallet Release completed	Q1 2018
IOS App	Q2 2018
Android App	Q2 2018
Web Wallet	Q3 2018

Listing On the Following Exchanges

Abucoins.com	Q1 2018
Bleustrade.com	Q1 2018
Ezbtc.ca	Q1 2018
Bittylicious.com	Q1 2018
Openledger.io	Q1 2018
Stock.Exchange	Q1 2018
Crypto-Bridge	Q1 2018
CoinExchange	Q1 2018
Cryptopia	Q2 2018

Masternode Tracking listing:

Masternodes.pro	Q1 2018
MNRank	Q1 2018
Masternodes.online	Q1 2018

World Wide Mobile Recharge Website (Q2 2018 Planned):

We are Planning to Develop a Website For Worldwide Mobile Recharge. Where you can Recharge Mobile Phones Worldwide. This will give you a complete solution to Recharge Mobile Phone of your Home Country using Crypto Currencies. This will Include Payments to Other services also. Based on the Rules of the Country. We are planning to implement this within May 2018

Accepting Motile Coins while Buying Mobiles (Q2 2018 Planned):

The Coin will be Acceptable to Buy Mobile Phones Around the Shops in the World. We will continuously works towards this Step by Contacting Mobile sellers all over the world. We have planned achieve some output in this before the May 2018

Issuing ATM Cards to Withdraw the Coin (Q3 Planned):

We are Planning to Issue ATM Cards to Withdraw the Coin Around the World. This will help the people to use Motile Coin to Purchase Goods on POS and Merchants around the world. This will also help them to withdraw cash on ATMs Around the world in their Local Currency. We are planning to do this in Q3 of Year 2018.

Premine:

MIE has a premine of 5% that will be used for airdrops, bounties, Listing on exchanges, And to MIEelop the Project Such as Worldwide Mobile Recharges, Acceptance of Coin While Mobile Purchases. And to Issue ATM Cards and future projects like the Web Wallet, Android/IOS Wallets and much more which is Listed above in Roadmap.

Conclusions:

We believe we will MotileCoin will Provide Complete Cryptocurrency Payment solution for worldwide Mobile recharges & Payments related to Mobile. We will work Hard to achieve the Goal till its succeeded.
